“There are so many reasons to **choose World Book eBooks.**”

—Janice F., Librarian

“There is no doubt these eBooks will be **engaging for every student and every learning style!**”

We can’t wait to purchase them for our school!”

—Cynthia N., School Librarian

### **Do our eBooks work with Destiny? Follett? If so, how does it all work?**

*World Book eBooks* can be accessed in Destiny. Customers will need to download the free MARC records and add them to Destiny. Library users will then be able to click on a link that takes them directly to *World Book eBook* titles. *World Book eBooks* are currently not supported by Follett Shelf.

### **How does a customer download our MARC records?**

Customers can download World Book MARC records via their Tools administrative account. Here are the steps:

1. Log in to your Tools account.
2. Under Downloads, click eBooks Marc Records.
3. Click the Download link at the bottom of the page to download all MARC records for the site. You may also fill in your proxy server information or choose to download by date.

World Book keeps track of which MARC records you have already downloaded so that when you update your records, you receive only the new records that have been added since your last download.

### **How does a school district technical head unblock the pop-up blockers on all school district computers to enable World Book's eBooks on all the school district computers without affecting other school district databases that do not have this requirement?**

This would need to be answered by the IT administrator. However, in general, the pop-up block setting is browser-specific. Within each browser, the following settings should be enabled:

1. Cookies should be enabled
2. Pop-up windows should be enabled
3. Javascript should be enabled
4. The security level in the browser should be medium or lower (should not be high)

## Can a student use same login/password with My Research as with the eBook login?

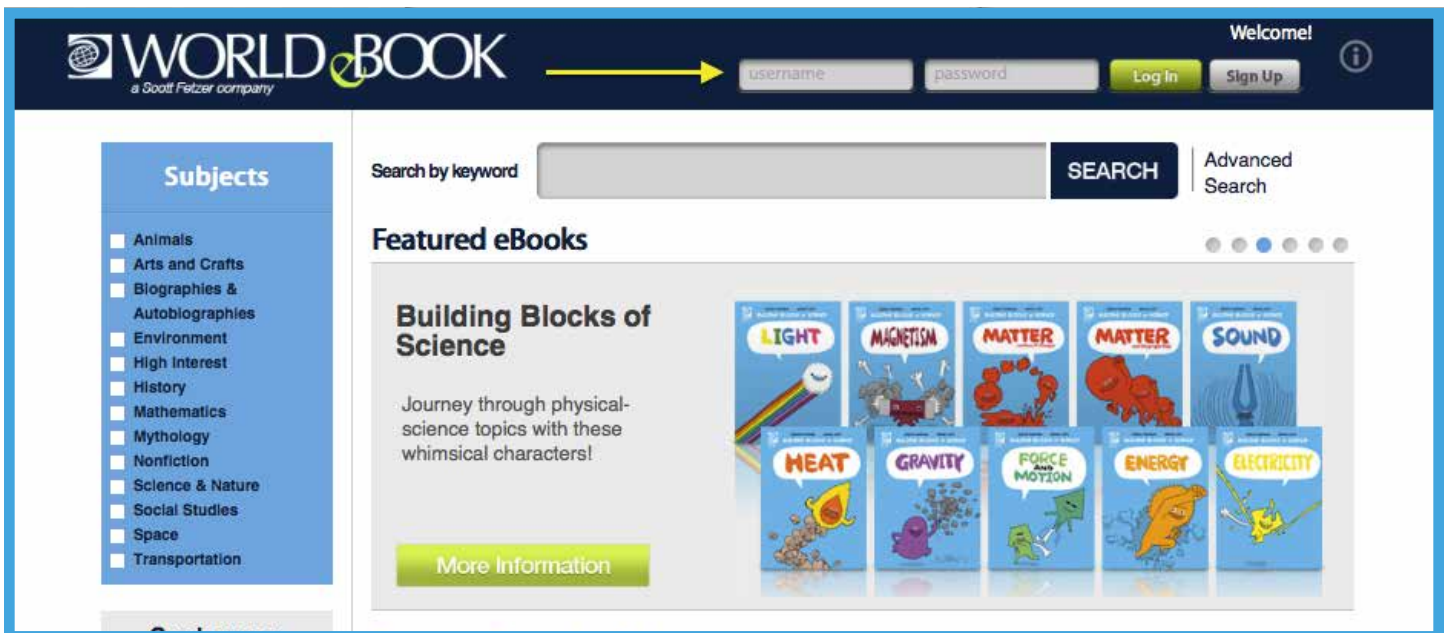

Yes.

## How do you create a My eBook account?

You can use an existing My Research username/password, but you don't have to. To set up an account, select the Sign Up button next to the login button.

## How do I download a book to my tablet?

To download eBooks, you must first log in to your personal account at the top of the page.

Then go to the title information page for a volume and tap on the Download button. This will launch you into the app, where the book will download to your bookshelf. [Note: eBooks are not available to download for desktop users. Therefore, desktop users will not see the Download button.]

## Where do I find the eBook App for my tablet?

Users may download the app for free from Google Play™ (Android devices) or iTunes® (iPads). If they haven't installed the app, they will be prompted to do so and automatically directed to iTunes or Google Play the first time they attempt to download an eBook.

## What devices are supported?

iPad

Google Nexus 7

Samsung Galaxy Note

Samsung Galaxy Tab 2 (10.1)

## Can I open the eBooks on other nonsupported tablets in the devices browser?

It is highly likely that you will be able to open eBooks on many nonsupported tablets. However, the display might not be optimal, and we cannot guarantee proper functionality. "Support" means that we tested the platform on these specific tablets to make sure everything works.

## What browsers are supported on a desktop or laptop computer?

Google Chrome (all versions)

Internet Explorer 10 and above

Mozilla Firefox 17 and higher

Safari 6 and higher

## How does a student access eBooks from home?

This depends on the authentication mechanism that institution has set up with *World Book Online*. Some schools do referring URL authentication so that when a student goes through their school or library's site to *World Book Online*, it automatically recognizes the institution's URL and lets the student into *World Book Online*. Having a username and password for the school account is another option, or the schools can work with World Book to set up SSO access so that student's school network credentials authenticate them at *World Book Online*.

## How can I get the eBook MARC records to add to my catalog?

You would need to contact your library software vendor and ask them the procedure for importing MARC records into your catalog.

## Do the MARC records include a link to the eBook for easy access to the book?

Yes, our MARC records include URL's that link directly to the eBook title information page. From there, the user must click on OPEN BOOK to access the title.

## How do I look up a definition of a word?

Select the word or phrase with your cursor or finger to activate the Quick Menu. Then select the Dictionary feature.

## None of the toolbars shows up on the tablet; how do I access them?

If you are on a supported Android™ device or an iPad® running iOS 7 software, you can activate the toolbars by tapping anywhere on your screen.

Currently, the toolbar functionality is not compatible with changes Apple has made as part of their iOS 8 software update. We are working diligently to restore the toolbar functionality as quickly as possible. In the meantime, we recommend that iPad users view eBooks using our eBook app, which is available for free in iTunes.

## MARC Records FAQs

### **\*What is a MARC record?**

A MARC record is a MACHine-Readable Cataloging record. It allows computers in a library to read and interpret the data in a cataloging record—the digital equivalent of the traditional card catalog.

### **\*What does a MARC record tell you?**

Information about the work, such as the title, author, call number, publisher, ISBN, and subject headings, are included within a MARC record.

### **\*Where do I get MARC records for World Book eBooks?**

World Book provides MARC records for all titles on World Book eBooks. Please visit <http://www.worldbookonline.com/training/marc/> to download MARC records for the eBooks site.

### **\*What is the 856 field in a MARC record?**

The 856 field is the “address” of the book on the Internet. This allows patrons to access the eBook from the library’s electronic catalog. The 856 field holds the URL for the eBook. Libraries that require custom URLs may need to modify the MARC records.

- If a library is using bar code authentication or is sharing authentication with other accounts (e.g., other schools in the district), the URLs must include the library’s World Book account ID in the 856 field.

Sample URL for the 856 field without World Book account ID:

<http://www.worldbookonline.com/wb/ebooks/mall/instt/catalog/urn:ISBN:978-0-7166-0419-8/detail.do>

Sample URL with World Book account ID appended:

<http://www.worldbookonline.com/wb/ebooks/mall/instt/catalog/urn:ISBN:978-0-7166-0419-8/detail.do?subacct=123X>

- If a library uses a proxy server (a server that acts as a “middleman”), the URL must be changed to replace [www.worldbookonline.com](http://www.worldbookonline.com) with the library’s proxy server (e.g., [www.worldbookonline.com.myschool.edu](http://www.worldbookonline.com.myschool.edu)).
- At this time, a librarian must edit the World Book MARC record as needed.

**\*Can a library make changes to the MARC records?**

Yes, librarians may edit the MARC records to include additional subject headings, change call numbers, or make other changes they see fit.
